JOURNAL OF THE NATIONAL CANCER INSTITUTE

INDEX OF AUTHORS

Boldface page numbers indicate senior authorship

	Page
Ackerman, G. Adolph	**465, 1267**
Algire, Glenn H	**399, 1079, 1279**
Allison, J. B	305
Anderson, Belle F	1079, 1279
Andervont, Howard B	1279
Antikajian, Grace	**269**
Argyris, Thomas S	**1159**
Arzac, J. P	**254**
Ashbel, Rivka	226
Bacon, Harry E	1237
Baker, R. D	**225**
Barr, M. L	244
Barrett, Morris K	**1011**
Beard, Dorothy	447
Beard, J. W	447
Bell, E. T	1345
Bellamy, Albert W	1389
Belt, W. D	**254**
Bennett, James G	1019
Bennett, Warren A	851
Bennison, B. E	807
Benton, J. G	242
Berenbom, M	**583**
Bierman, Howard R	**107, 701**
Blank, H	**210**
Bloomfield, J. R	615
Bogoroch, R	**255**
Breakstone, R	242
Brodie, A. F	248
Brown, Mary B	427, 765
Bryan, W. Ray	1317
Bryant, Henry C	**715**
Burdette, Walter J	**709**
Byron, Ralph L., Jr	107
Carnes, W. H	**240**
Changus, G. W	**255**
Chase, Herman B	591
Clemmesen, Johannes	**1**
Clermont, Y	228
Cohen, R. B	226
Congdon, Charles C	**893, 1297**
Copeland, D. E	**224**
Cornfield, Jerome	1141
Crabb, Edward D	**91**
Crossley, M. L	**305**

INDEX OF SUBJECTS
VOLUME 12

JOURNAL OF THE NATIONAL CANCER INSTITUTE

INDEX OF SUBJECTS

Page

Acid phosphatase of serum and hepatic tissue. *Mulay* and *Firminger*..... 917
Adaptation, induced, in a tumor; permanence of the change. *Barrett* and *Deringer*..... 1011
Adenomatosis, pulmonary. *Horn* et al..... 1297
Adrenalin, effect of local injections of on epidermal carcinogenesis. *Ritchie*.. 839
Alkaline phosphatase of serum and hepatic tissue. *Mulay* and *Firminger*.... 917
Amelanotic derivative of Cloudman melanoma S91, growth and histopathology of. *Loustalot* et al..... 1079
——— tumor, melanin production *in vitro*. *Hesselbach*..... 337
Amino acids, free, paper chromatography of. *Gilligan* et al..... 657
——— free, paper chromatography of. *Moor* and *Gilligan*..... 691
——— of gastric juice, paper chromatography of. *Warren* et al..... 677
4-Amino derivatives of folic acid, effect of on tissues *in vitro*. *Antikajian* et al. 269
Aminopterin, biological interrelations with folic acid and citrovorum factor. *Goldin* et al..... 987
Announcement, Fellowships..... 699
Antibody formation, effect of guanazolo on. *Malmgren* et al..... 807
Arteriography, hepatic, vascular patterns of liver by, *in vivo*. *Bierman* et al.. 107
Arterial occlusion, effect of on epidermal carcinogenesis. *Ritchie*..... 847
Ascites (reticuloendothelial cell?) sarcoma. *Yoshida*..... 947
Aureomycin, effect of on tissues *in vitro*. *Antikajian* et al..... 269
Avian erythromyeloblastic leukosis. *Eckert* et al..... 447
Avitaminosis A of forestomach: comparison with Fibiger's results. *Hitchcock* and *Bell*..... 1345

Benzanthracene (1, 2-benzanthracene), action of in induction of skin tumors. *Klein*..... 735
Benzoylarginine amidase activity, intracellular distribution of. *Maver* and *Greco*..... 37
Bile, failure of as abetting agent for 20-methylcholanthrene. *Hitchcock*..... 369
Blood, increased oxygen content of venous blood draining neoplasms. *Bierman* et al..... 701
——— pentolysis in rats bearing induced sarcomas. *Steen*..... 195
——— protein levels, determination of in acute myelogenous leukemia. *Gutter* et al..... 323
——— vascular patterns of liver by hepatic arteriography *in vivo*. *Bierman* et al..... 107
Bone marrow injections, modification of irradiation injury by. *Lorenz* et al.. 197
Breast, cancer of the; effects of pregnancy on. *Gilliam*..... 287

Cancer, role of the chemotherapy research laboratory in. *Shear*..... 569
———, fertility and cancer of breast and of uterine cervix; effects of pregnancy on. *Gilliam*..... 287
———, human, etiology of. *Clemmesen*..... 1
———, preparation of serologically active nonsaponifiable fraction of liver of cancer-bearing patients, and clinical evaluation. *Penn* and *Hall* et al... 1389
——— urine extract test for. *Farringer*..... 1225
Carbon dioxide and glycogen, in rats receiving *p*-dimethylaminoazobenzene, conversion of L-valine to. *Fones* and *White*..... 423

Page

Carcinoma, Brown-Pearce, development and duration of reaction. *Ellerbrook* et al. . . . 937
——— cells, cytologic study of the gastric aspirate for. *Wollum* et al. . . . 715
——— squamous-cell, histopathogenesis of induced in forestomach. *Firminger* and *Stewart* . . . 491
———, metastasis of after Roentgen irradiation. *von Essen* and *Kaplan* . . . 883
Carcinogen, acid and alkaline phosphatase of serum and hepatic tissue of rats fed. *Mulay* and *Firminger* . . . 917
——— histology of skin and mucous membrane of lip of mouse to single application of. *Levy* et al. . . . 275
Carcinogenesis, epidermal, effect of local injections of adrenalin on. *Ritchie*. 839
———, epidermal, effect of arterial occlusion on. *Ritchie* . . . 847
——— in colon and rectum. *Laurens* and *Bacon* . . . 1237
Cathepsin, intracellular distribution of. *Maver* and *Greco* . . . 37
Cell, animal tissue, growth of. *Earle* et al. . . . 179
———, carcinoma, cytologic study of gastric aspirate for. *Wollum* et al. . . . 715
———, formation of organized aggregates of *in vitro*. *Leighton* . . . 545
———, human lymph node, cytochemistry and morphology of. *Ackerman* et al. . . . 1267
———, infection of in tissue culture with Rous sarcoma virus. *Sanford* et al. 1317
———, liver, growth of massive cultures of. *Evans* et al. . . . 1245
———, neoplastic and nonneoplastic human lymph node, cytochemistry and morphology of. *Ackerman* et al. . . . 465
———, strain L, influence of glass and cellophane substrates on proliferation of. *Earle* et al. . . . 563
Cellophane and glass substrates, influence of on proliferation. *Earle* et al. . . . 563
———, perforated, growth of chick-heart and strain L fibroblasts on. *Shannon* and *Earle* . . . 155
Cervix, cancer of. *Gilliam* . . . 287
Chemotherapy, research laboratory, role of in clinical cancer research. *Shear*. 569
——— treatment of Sarcoma 231 with 2,4,6-triethylenimino-s-triazine and related products. *Crossley* et al. . . . 305
Chick-heart and strain L fibroblasts, growth of on glass and perforated cellophane substrates. *Shannon* and *Earle* . . . 155
Chordoma, proliferative lesions resembling, following puncture of the nucleus pulposus. *Congdon* . . . 893
Chromatography, paper partition, of amino acids of gastric juice of patients with gastric lesions. *Warren* et al. . . . 677
———, paper partition, of free amino acids and peptides of gastric juice. *Gilligan* et al. . . . 657
———, paper partition, of free amino acids and peptides of saliva. *Moor* and *Gilligan* . . . 691
Chymotrypsin and trypsin, serum inhibitors of. *Peacock* and *Sheehy* . . . 861
Citrovorum factor, biological interrelations with folic acid and aminopterin. *Goldin* et al. . . . 987
Clinical evaluation and preparation of a serogically active nonsaponifiable fraction of liver of cancer-bearing patients. *Hall* and *Penn* et al. . . . 1389
Cloudman melanoma S91, growth and histopathology of melanotic and amelanotic derivatives of. *Loustalot* et al. . . . 1079
Colon, carcinogenesis in. *Laurens* and *Bacon* . . . 1237
Complement fixation in animal neoplasia; development and duration of reaction in rabbits carrying Brown-Pearce carcinoma. *Ellerbrook* et al. . . . 937
Cortisone acetate, influence of upon growth of transplanted rhabdomyosarcoma. *Higgins* and *Bennett* . . . 851
——— -induced lymphopenia, relation of to transplanted sarcoma. *Crabb* and *Kelsall* . . . 91

Page

Croton oil, action of in induction of skin tumors. *Klein* 735
Cytochemistry, and histology of human skin; metachromasia in the mons pubis. *Montagna* et al 591
———, and morphology of human lymph node cells grown *in vitro*. *Ackerman* et al 1267
——— and morphology of neoplastic and nonneoplastic human lymph node cells. *Ackerman* et al 465
Cytologic study of gastric aspirate for carcinoma cells. *Wollum* et al 715

Dimethylaminoazobenzene (*p*-dimethylaminoazobenzene), conversion of L-valine to glycogen and carbon dioxide in rats receiving. *Fones* and *White* .. 423
——— (*p*-dimethylaminoazobenzene), N^{15}-labeled, metabolism of. *Berenbom* and *White* 583
——— (*p*-dimethylaminoazobenzene), production of hepatic tumors in rats ingesting. *White* and *Hein* 23

Electrophoresis, determination of blood-protein levels in acute myelogenous leukemia. *Gutter* et al 323
Electron microscopic study of the Shope papilloma virus. *Kahler* and *Lloyd* . 1167
Enzyme systems, in melanin production *in vitro* by melanotic and amelanotic tumors. *Hesselbach* 337
Epidermis, of mice painted with methylcholanthrene, glycogen in. *Argyris* ... 1159
Etiology of some human cancers. *Clemmesen* 1
Eugenol and heat, failure of to potentiate gastric tumor induction by 20-methylcholanthrene. *Hitchcock* 723
Exchange transfusion treatment, blood-protein levels in acute myelogenous leukemia by. *Gutter* et al 323

Fellowships 699
Fibiger, J., comparison of results with: studies on the Nematode parasite, *Gongylonema neoplasticum* (*Spiroptera neoplasticum*) and avitaminosis A-deficient diets of the forestomach. *Hitchcock* and *Bell* 1345
Fibroblasts, strain L and chick-heart, growth of on glass and cellophane. *Shannon* and *Earle* 155
Flexed-tail-anemia gene and induced leukemia. *Law* 1119
Folic acid, biological interrelationships with citrovorum factor and aminopterin. *Goldin* et al 987
———, effect of on tissues *in vitro*. *Antikajian* et al 269
Forestomach of mice, histopathogenesis of induced squamous-cell carcinoma. *Firminger* and *Stewart* 491
——— of rats, studies on the Nematode parasite, *Gongylonema neoplasticum* (*Spiroptera neoplasticum*), and avitaminosis A affecting: comparison with Fibiger's results. *Hitchcock* and *Bell* 1345
Fraction, serologically active nonsaponifiable, preparation of from liver of cancer-bearing patients, and clinical evaluation. *Penn* and *Hall* et al 1389

Gamma-irradiation, whole-body, histological effects of. *Spargo* et al 615
Gastric aspirate, cytologic study of for carcinoma cells. *Wollum* et al 715
——— juice, paper chromatography of free amino acids and peptides of. *Gilligan* et al 657
——— lesions, paper chromatography of amino acids of gastric juice of patients with. *Warren* et al 677
——— tumor induction by 20-methylcholanthrene in mice, failure of eugenol and heat to potentiate. *Hitchcock* 723
——— tumors, failure of bile as abetting agent for 20-methylcholanthrene in induction of. *Hitchcock* 369

Page

Gene, interrelation of with body weight and development of tumors. *Heston* et al. . . . 1141
———, flexed-tail-anemia, and induced leukemia. *Law* . . . 1119
———, hairless and pink-eye, relationship to tumor. *Heston* and *Deringer* . . . 361
Gland, adrenal, rôle of in hematopoietic and thymicolymphatic response of rat to podophyllotoxin. *Kelly* et al. . . . 1177
———, thyroid, function of transplantable tumors of. *Wollman* et al. . . . 27
Glass and cellophane substrates, influence of on proliferation. *Earle* et al. . . . 563
———, pyrex, growth of chick-heart and strain L fibroblasts on. *Shannon* and *Earle* . . . 155
Glycogen and carbon dioxide in rats receiving *p*-dimethylaminoazobenzene, conversion of L-valine to. *Fones* and *White* . . . 423
——— in the epidermis. *Argyris* . . . 1159
Gongylonema neoplasticum (*Spiroptera neoplasticum*) studies on: comparison with Fibiger's results. *Hitchcock* and *Bell* . . . 1345
Growth of animal tissue on three-dimensional substrates. *Earle* et al. . . . 179
———, comparison of in chick-heart and strain L fibroblasts. *Shannon* and *Earle* . . . 155
——— and histopathology of melanotic and amelanotic derivatives of Cloudman melanoma S91. *Loustalot* et al. . . . 1079
———, *in vitro*, of massive cultures of liver cells. *Evans* et al. . . . 1245
——— of transplanted rhabdomyosarcoma, influence of cortisone acetate upon. *Higgins* and *Bennett* . . . 851
Guanazolo, effect of on antibody formation. *Malmgren* et al. . . . 807

Hairless genes, relationship to tumor. *Heston* and *Deringer* . . . 361
——— strain HR mice, spontaneous and induced tumors in. *Deringer* . . . 437
Hematopoietic response of rat to podophyllotoxin, rôle of adrenal glands in. *Kelly* et al. . . . 1177
Hepatic tissue, acid and alkaline phosphatase of. *Mulay* and *Firminger* . . . 917
——— tumors, production of in rats ingesting *p*-dimethylaminoazobenzene. *White* and *Hein* . . . 23
Hepatoma, metabolism of L-histidine-2-C ^{14} in. *Reid* et al. . . . 929
———, primary rat, intracellular distribution of cathepsin, benzoylarginine amidase, and leucine amidase activities in. *Maver* and *Greco* . . . 37
Histidine (L-histidine-2-C ^{14}), metabolism of. *Reid* et al. . . . 929
Histochemical Society, Business Meeting . . . 205
Index of Authors . . . 207
Scientific Proceedings . . . 209
Histology and cytochemistry of human skin. *Montagna* et al. . . . 591
——— of skin and mucous membrane of lip of mouse to single application of carcinogen. *Levy* et al. . . . 275
———, effects of long-continued whole-body gamma-irradiation. *Spargo* et al. . . . 615
Histopathogenesis of squamous-cell carcinoma induced in forestomach. *Firminger* and *Stewart* . . . 491
Histopathology and growth of melanotic and amelanotic derivatives of Cloudman melanoma S91. *Loustalot* et al. . . . 1079
Hodgkin's disease, special reference to. *Ackerman* et al. . . . 465
——— tissue, metabolism of. *Laser* . . . 259
HR strain mice, spontaneous and induced tumors in. *Deringer* . . . 437
Human cancers, etiology of. *Clemmesen* . . . 1
Humans, increased oxygen content of venous draining neoplasms. *Bierman* et al. . . . 701
———, vascular patterns of liver by hepatic arteriography. *Bierman* et al. . . . 107
———, blood-protein levels in case of acute myelogenous leukemia under exchange transfusion treatment. *Gutter* et al. . . . 323

Humans, fertility and cancer of breast and of uterine cervix; effect of pregnancy on. *Gilliam* ..... Page 287
———, gastric juice, paper chromatography of free amino acids and peptides of. *Gilligan* et al 657
———, lymph node cells grown *in vitro*, cytochemistry and morphology of. *Ackerman* et al 1267
———, lymph node cells (neoplastic and nonneoplastic) with special reference to Hodgkin's disease, cytochemistry and morphology of. *Ackerman* et al .. 465
———, patients with gastric lesions, paper chromatography of amino acids of gastric juice of. *Warren* et al 677
———, saliva, paper chromatography of free amino acids and peptides of. *Moor* and *Gilligan* 691
———, skin, histology and cytochemistry of. *Montagna* et al 591
Hypotension, peripheral, effect of on transplanted tumors. *Algire* and *Legallais* 399
———, rôle of in action of a bacterial polysaccharide on tumors. *Algire* et al .. 1279

Inoculum size, influence of on proliferation in tissue cultures. *Earle* et al 133
Intracellular distribution of cathepsin, benzoylarginine amidase, and leucine amidase activities in normal rat tissues and primary rat hepatoma. *Maver* and *Greco* 37
Iodoacetate index, tests for the least coagulable serum protein and. *Ellerbrook* et al 49
Ion density, the 30-day LD-50 of two radiations of different. *Hollcroft* and *Lorenz* 533
Irradiation (gamma), histological effects of long continued whole-body. *Spargo* et al 615
——— injury, modification of. *Lorenz* et al 197
———, partial-body, observations on inhibition of lymphoid tumor development by. *Kaplan* and *Brown* 427
———, Roentgen, metastasis of transplantable mouse mammary carcinoma after. *von Essen* and *Kaplan* 883
———, total-body, mortality of mice after. *Kaplan* and *Brown* 765
Isogenic strains, incidence of tumors in. *Burdette* 709

Leucine amidase activities in normal rat tissue and primary rat hepatoma. *Maver* and *Greco* 37
Leukemia, induced, and the flexed-tail-anemia gene. *Law* 1119
——— in hybrid mice bearing thymic transplants from high leukemic strain, increase in incidence of. *Law* 789
———, myelogenous, determination of blood-protein levels in. *Gutter* et al .. 323
———, myelogenous, in the cat. *Eyestone* 599
Leukosis, avian erythromyeloblastic, dose-response relations in experimental transmission of. *Eckert* et al 447
LD–50, 30-day, of two radiations of different ion density. *Hollcroft* and *Lorenz* 533
Lip of mouse, mucous membrane of, histology of reactions to single application of carcinogen. *Levy* et al 275
Lipoids, tumor, preparation of a serologically active nonsaponifiable fraction of liver of cancer-bearing patients, and clinical evaluation. *Penn* and *Hall* et al. 1389
Liver, from cancer-bearing patients, preparation of a serologically active nonsaponifiable fraction from, and clinical evaluation. *Penn* and *Hall* et al 1389
——— cells, growth *in vitro* of massive cultures of. *Evans* et al 1245
——— glucuronidase activity, inheritance of. *Law* et al 909
———, vascular patterns of by hepatic arteriography *in vivo*. *Bierman* et al .. 107
Lung tumorigenesis, transplacental effect of urethan on. *Klein* 1003

Page

Lymph node cells, human, cytochemistry and morphology of. *Ackerman* et al. 1267
———, neoplastic and nonneoplastic human, cytochemistry and morphology of. *Ackerman* et al. 465
Lymphoid tissues, normal and malignant, studies on the oxidase activity of. *Steinberg* et al. 971
Lymphoid tumor development, inhibition of by shielding and partial-body irradiation. *Kaplan* and *Brown*. 427
Lymphomas, transplantable, induced by X radiation, origin and behavior of. *Shelton*. 1203
Lymphopenia, cortisone-induced, relation of to transplanted sarcoma. *Crabb* and *Kelsall*. 91
Lymphosarcoma, transplanted, factors modifying effect of X-irradiation on regression of. *Hollcroft* et al. 751

Malignant neoplastic diseases, various tests for. *Ellerbrook* et al. 49
——— neoplastic diseases, various tests for. *Peacock* and *Sheehy*. 861
——— and normal lymphoid tissues, studies on oxidase activity of. *Steinberg* et al. 971
——— tissues *in vivo*, vascular reactions of; rôle of hypotension of a bacterial polysaccharide on tumors. *Algire* et al. 1279
——— tissues *in vivo*, vascular reactions of; effect of peripheral hypotension on transplanted tumors. *Algire* and *Legallais*. 399
Mammary carcinoma, metastasis of after Roentgen irradiation. *von Essen* and *Kaplan*. 883
——— tumor agent, transmission of by male parent. *Mühlbock*. 819
——— tumor milk agent from implant to host, transfer of. *Prehn*. 1127
Melanin production *in vitro*, participation of two enzyme systems in. *Hesselbach*. 337
Melanoma, production of sarcomas from cultured tissues of. *Sanford* et al. 1057
Melanotic derivative of Cloudman melanoma S91, growth and histopathology of. *Loustalot* et al. 1079
——— tumors, melanin production *in vitro*. *Hesselbach*. 337
Metabolism of Hodgkin's disease tissue. *Laser*. 259
——— of L-histidine–2–C^{14} in normal and hepatoma-bearing rat. *Reid* et al. 929
——— of N^{15}-labeled *p*-dimethylaminoazobenzene. *Berenbom* and *White*. 583
Metachromasia in the mons pubis; histology and cytochemistry of human skin. *Montagna* et al. 591
Metastasis of a transplantable mouse mammary carcinoma after Roentgen irradiation. *von Essen* and *Kaplan*. 883
Methylcholanthrene, action of in induction of skin tumors. *Klein*. 735
———, glycogen in the epidermis of mice painted with. *Argyris*. 1159
20-Methylcholanthrene, in induction of gastric tumors, failure of bile as abetting agent for. *Hitchcock*. 369
———, histopathogenesis of squamous-cell carcinoma induced in forestomach. *Firminger* and *Stewart*. 491
———, failure of eugenol and heat to potentiate gastric tumor induction by. *Hitchcock*. 723
———, tumors of the glandular stomach induced in rats by intramural injection of. *Hare* et al. 1019
Milk agent, mammary tumor, transfer of from implant to host. *Prehn*. 1127
Mono-N-methylaniline, acute necrotizing renal papillitis experimentally produced in rats fed. *White* and *Mori-Chavez*. 777
Mons pubis, metachromasia in; histology and cytochemistry of human skin. *Montagna* et al. 591
Mucous membrane of lip of mouse, histology of reactions to single application of carcinogen. *Levy* et al. 275

Page

Myelogenous leukemia in the cat. *Eyestone*..... 599
———, determination of blood-protein levels in. *Gutter* et al..... 323

Nematode parasite, studies on; comparison with Fibiger's results. *Hitchcock* and *Bell*..... 1345
Neoplasia, animal, complement fixation in; development and duration of reaction in rabbits carrying Brown-Pearce carcinoma. *Ellerbrook* et al..... 937
Neoplasm, venous blood draining, increased oxygen content of. *Bierman* et al.. 701
Neoplastic diseases, malignant, tests for. *Ellerbrook* et al..... 49
Nucleus pulposus, proliferative lesions resembling chordoma following puncture of. *Congdon*..... 893

Ovary, tumorigenesis following intrasplenic transplantation of. *Klein*..... 877
Oxidase activity of normal and malignant lymphoid tissues. *Steinberg* et al.. 971
Oxygen content of venous blood draining neoplasms. *Bierman* et al..... 701

Papillitis, acute necrotizing renal, produced in rats fed mono-N-methylaniline. *White* and *Mori-Chavez*..... 777
Pentolysis, blood, in rats bearing induced sarcomas. *Steen*..... 195
Peptides and free amino acids of gastric juice, paper chromatography of. *Gilligan* et al..... 657
——— and free amino acids, of saliva, paper chromatography of. *Moor* and *Gilligan*..... 691
Pink-eye genes, relationship to tumor. *Heston* and *Deringer*..... 361
Podophyllotoxin, rôle of adrenal glands in hematopoietic and thymicolymphatic response of rat to. *Kelly* et al..... 1177
Polysaccharide, bacterial, rôle of hypotension in action of on tumors. *Algire* et al..... 1279
Pregnancy in women with cancer of breast and uterine cervix and at other sites, comparison of rates of. *Gilliam*..... 287
Proceedings, scientific, of Histochemical Society..... 209
Proliferation, influence of inoculum size on in tissue cultures. *Earle* et al..... 133
——— of strain L cells in tissue culture, influence of glass and cellophane substrates on. *Earle* et al..... 563
Proliferative lesions resembling chordoma following puncture of the nucleus pulposus. *Congdon*..... 893
Protein, blood levels in acute myelogenous leukemia. *Gutter* et al..... 323
———, least coagulable serum, and the iodoacetate index. *Ellerbrook* et al... 49
Pulmonary adenomatosis. *Horn* et al..... 1297
Pulmonary tumor, spontaneous, report of a lesion. *Horn* and *Stewart*..... 743

Radiation, 3-day LD–50, two of different ion density. *Hollcroft* and *Lorenz*... 533
Rectum, carcinogenesis in. *Laurens* and *Bacon*..... 1237
Regression of transplanted lymphosarcoma, factors modifying effect of. *Hollcroft* et al..... 751
Reticuloendothelial cell (?), ascites sarcoma, studies on. *Yoshida*..... 947
Rhabdomyosarcoma, transplanted, influence of cortisone acetate upon growth of. *Higgins* and *Bennett*..... 851
Roentgen irradiation, metastasis of transplantable mouse mammary carcinoma after. *von Essen* and *Kaplan*..... 883
Rous sarcoma virus, infection of cells in tissue culture with. *Sanford* et al... 1317

Saliva, paper chromatography of free amino acids and peptides of. *Moor* and *Gilligan*..... 691
Sarcoma, induced, blood pentolysis in rats bearing. *Steen*..... 195
———, production of from cultured tissues of hepatoma, melanoma, and thyroid tumors. *Sanford* et al..... 1057
———, studies on an ascites (reticuloendothelial cell?). *Yoshida*..... 947

Page

Sarcoma, transplanted in hamsters, relation of cortisone-induced lymphopenia to. *Crabb* and *Kelsall*..... 91
——— 231, treatment of with 2,4,6-triethylenimino-s-triazine and related products. *Crossley* et al..... 305
Serologically active nonsaponifiable fraction of liver of cancer-bearing patients, preparation of and clinical evaluation. *Penn* and *Hall* et al..... 1389
Serum, acid and alkaline phosphatase of. *Mulay* and *Firminger*..... 917
——— inhibitors of chymotrypsin and trypsin. *Peacock* and *Sheehy*..... 861
——— protein and the iodoacetate index. *Ellerbrook* et al..... 49
Shope papilloma virus, electron microscopic study of. *Kahler* and *Lloyd*..... 1167
Skin, histology and cytochemistry of. *Montagna* et al..... 591
——— and mucous membrane of lip of mouse, histology of reactions to single application of carcinogen. *Levy* et al..... 275
——— tumors, action of methylcholanthrene, croton oil, and 1,2-benzanthracene in induction of. *Klein*..... 735
Sponge matrix method for tissue culture. Formation of organized aggregates of cells *in vitro*. *Leighton*..... 545
Squamous-cell carcinoma induced in forestomach, histopathogenesis of. *Firminger* and *Stewart*..... 491
Spontaneous tumors in haired and hairless strain HR mice. *Deringer*..... 437
Stomach (glandular) induced tumors of. *Hare* et al..... 1019
Substrates, glass and cellophane, influence of on proliferation. *Earle* et al..... 563

Test, for malignant neoplastic diseases, least coagulable serum protein and the iodoacetate index. *Ellerbrook* et al..... 49
———, urine extract, study of for cancer. *Farringer*..... 1225
Thymicolymphatic response of rat to podophyllotoxin, rôle of adrenal glands in. *Kelly* et al..... 1177
Thymus transplant, thymic, from a high leukemic strain, increase in incidence of leukemia in hybrid mice bearing. *Law*..... 789
Thyroid gland, function of transplantable tumors of. *Wollman* et al..... 27
Thyroid tumors, production of sarcomas from cultured tissues of. *Sanford* et al. 1057
Tissue, effect of triethylene melamine, aureomycin, and some 4-amino derivatives of folic acid on. *Antikajian* et al..... 269
———, Hodgkin's disease, the metabolism of. *Laser*..... 259
———, normal and malignant, the oxidase activity of. *Steinberg* et al..... 971
———, normal and malignant, vascular reactions *in vivo* of; effect of peripheral hypotension on transplanted tumor. *Algire* and *Legallais*..... 399
———, normal and malignant, vascular reactions of *in vivo;* rôle of hypotension in action of a bacterial polysaccharide on tumors. *Algire* et al..... 1279
———, normal rat, intracellular distribution of cathepsin, benzoylarginine amidase and leucine amidase activities in. *Maver* and *Greco*..... 37
Tissue cells, animal, growth of. *Earle* et al..... 179
Tissue culture, of hepatoma, melanoma, and thyroid tumors, production of sarcomas from. *Sanford* et al..... 1057
———, infection of cells in with Rous sarcoma virus. *Sanford* et al..... 1317
———, influence of glass and cellophane substrates on proliferation of strain L cells in. *Earle* et al..... 563
———, influence of inoculum size on proliferation in. *Earle* et al..... 133
———, a sponge matrix method for. *Leighton*..... 545
Transplantation, intrasplenic, of ovaries, ovarian tumorigenesis following. *Klein*..... 877
——— of lymphosarcoma, factors modifying effect of X-irradiation on regression of. *Hollcroft* et al..... 751
——— of mouse mammary carcinoma after Roentgen irradiation, metastasis of. *von Essen* and *Kaplan*..... 883

Page

Transplantation of rhabdomyosarcoma, influence of cortisone acetate upon growth of. *Higgins* and *Bennett* ... 851
——— of sarcoma, relation of cortisone-induced lymphopenia to. *Crabb* et al. . 91
———, thymic, from high leukemic strain, increase in incidence of leukemia in hybrid mice bearing. *Law* ... 789
——— of tumors of thyroid gland, function of. *Wollman* et al. ... 27
———, two lymphomas induced by X radiation, origin and behavior of. *Shelton* ... 1203
Treatment, exchange transfusion, determination of blood-protein levels in acute myelogenous leukemia. *Gutter* et al ... 323
———, periodicity of, mortality of mice after total-body irradiation as influenced by. *Kaplan* and *Brown* ... 765
——— of Sarcoma 231 with 2,4,6-triethylenimino-s-triazine and related products. *Crossley* et al ... 305
Triethylene melamine, effect of, on tissues *in vitro*. *Antikajian* et al ... 269
2,4,6-triethylenimino-s-triazine and related products, treatment of Sarcoma 231 with. *Crossley* et al ... 305
Trypsin and chymotrypsin, serum inhibitors of. *Peacock* and *Sheehy* ... 861
Tumor, chemotherapy of; treatment of Sarcoma 231 with 2,4,6-triethylenimino-s-triazine and related products. *Crossley* et al ... 305
———, development in backcross mice segregated with respect to the hairless and the pink-eye genes. *Heston* and *Deringer* ... 361
———, hepatic, production of in rats ingesting *p*-dimethylaminoazobenzene. *White* and *Hein* ... 23
———, gastric, failure of bile as abetting agent for 20-methylcholanthrene in induction of in mice. *Hitchcock* ... 369
———, gastric, induction by 20-methylcholanthrene, failure of eugenol and heat to potentiate. *Hitchcock* ... 723
——— of the glandular stomach induced by intramural injection of 20-methylcholanthrene. *Hare* et al ... 1019
———, incidence of in isogenic strains. *Burdette* ... 709
———, induced adaptation in; permanence of the change. *Barrett* and *Deringer* ... 1011
——— lipoids, preparation of a serologically active nonsaponifiable fraction of liver of cancer-bearing patients, and clinical evaluation. *Penn* and *Hall* et al. . 1389
———, lymphoid, inhibition of development of by shielding and partial-body irradiation. *Kaplan* and *Brown* ... 427
———, in man, studies on blood supply of. *Bierman* et al ... 107, 701
———, interrelation of specific genes, body weight, and development of. *Heston* et al ... 1141
———, melanotic and amelanotic, two enzyme systems in melanin production *in vitro* by. *Hesselbach* ... 337
———, mouse mammary agent, studies on transmission of by male parent. *Mühlbock* ... 819
——— milk agent, mammary, transfer of from implant to host. *Prehn* ... 1127
———, rôle of hypotension in action of a bacterial polysaccharide on. *Algire* et al ... 1279
———, skin, action of methylcholanthrene, croton oil, and 1,2-benzanthracene in induction of. *Klein* ... 735
———, spontaneous, in haired and hairless strain HR mice. *Deringer* ... 437
———, spontaneous pulmonary, report of a lesion. *Horn* and *Stewart* ... 743
———, transplantable, of thyroid gland, function of. *Wollman* et al ... 27
———, transplanted, effect of peripheral hypotension on. *Algire* and *Legallais* . 399
Tumorigenesis (lung) transplacental effect of urethan on. *Klein* ... 1003
———, ovarian, following intrasplenic transplantation of ovaries. *Klein* ... 877

Page

Urethan, transplacental effect of, on lung tumorigenesis. *Klein* 1003
Urine extract test for cancer. *Farringer* 1225

Valine (L-valine), conversion of to glycogen and carbon dioxide in rats receiving *p*-dimethylaminoazobenzene. *Fones* and *White* 423
Vascular patterns of the liver by hepatic arteriography *in vivo*. *Bierman* et al .. 107
——— reactions of normal and malignant tissues *in vivo;* effect of peripheral hypotension on transplanted tumors. *Algire* and *Legallais* 399
——— reactions of normal and malignant tissues *in vivo;* rôle of hypotension in action of a bacterial polysaccharide on tumors. *Algire* et al 1279
Virus, host-response to; dose-response relations in experimental transmission of avian erythromyeloblastic leukosis. *Eckert* et al 447
———, Rous sarcoma, infection of cells in tissue culture with. *Sanford* et al 1317
———, Shope papilloma, electron microscopic study of. *Kahler* and *Lloyd* 1167
Vitamin A deficient diets of the forestomach, studies on: comparison with Fibiger's results. *Hitchcock* and *Bell* 1345

X-irradiation, total-body, factors modifying the effect of on regression of a transplanted lymphosarcoma. *Hollcroft* et al 751
X radiation, origin and behavior of two transplantable lymphomas induced by. *Shelton* 1203
